RATE OF PAY FOR SUBSTITUTES

The rate of per diem pay for substitute teachers shall be established by the School Board.

The rate of pay for substitutes engaged in long periods of substitution shall be at the discretion of the Superintendent or designee based on the qualifications and experience of the substitute and the length and nature of the assignment.

The Superintendent or designee will create a procedure that clarifies the process and rate of pay for long-term substitutes (working more than 20 days in a single assignment) and substitutes working in a critical shortage area.
