## **RELATIONS WITH COMMUNITY ORGANIZATIONS**

The School Board believes that the public schools have the primary responsibility for the formal education of the children and youth of the community. However, the Board recognizes that many governmental agencies and community organizations, while not primarily concerned with education, play a definite role in education.

Therefore, it will be the desire of the Board to establish positive working relationships with all other public and private organizations which contribute to the education process and to the general welfare of the citizens of the community.
